## CITY COUNCIL MEMORANDUM FOR ORDINANCE

**To: Mayor & Council**

**From: Mike Halsema, Deputy City Manager**

**Agenda Item: Discussion and possible action regarding adjusting solid waste fees.**

### **Information:**

The solid waste agreement with Waste Management executed in December of 2022 provides for an annual CPI and fuel adjustment in Section 8. The City was notified by Waste Management of the adjustment which will be effective February, 2026. Per the calculations specified in the agreement, the rates charged to the City by Waste Management are increasing 0.85%. Residential cart service will increase from \$22.05 to \$22.23, and the At Your Door service increases to \$1.51 per month. Combined, the new total residential service will increase by \$0.19 to \$23.74 per month. Commercial dumpsters will increase by 0.85% as well. The proposed ordinance simply adjusts the rates the City charges customers by the amount of the increase in the rates that Waste Management will charge the City.

### **Financial Impact:**

	<b>Residential</b>		
	Current	Adjusted	Increase
Cart Service	\$22.05	\$22.23	0.18
At Your Door	\$1.50	\$1.51	0.01
Total	\$23.55	\$23.74	0.19
Extra Cart	\$5.35	\$5.39	0.04

### **Staff Recommendation:**

The staff recommends that the city council approve the Ordinance adjusting the solid waste collection fees effective February 1, 2026.

### **Motion:**

I move to approve Ordinance 2025-24, adjusting the solid waste fees in Chapter 18, third and final reading.

## CITY COUNCIL MEMORANDUM FOR RESOLUTION

**To: Mayor & Council**

**From: Bradford Hunt, City Manager**

**Agenda Item: Discussion and possible action regarding the current condition of the building encompassing the City Auditorium, Council Chambers, and Old City Hall**

### **Information:**

At the October 28, 2025 City Council Meeting, Council approved the expenditure of HOT funds to allow the City's contract engineering firm, Freese & Nichols to assess the current condition of the City Auditorium. Concerns about the building included:

- Structural – no known assessment of the auditorium/stage area, nor the former city hall area, since the 1938 construction.
- Electrical – outdated control panels, wiring, circuit breakers, and multiple sources into building.
- Hazardous materials – asbestos, mold, or other.
- Future renovation – the initial assessment will guide the scope and necessity of any future renovation projects for the stage/auditorium area, former city hall area, and current city council chambers.

FNI conducted field investigations and documented building deficiencies relative to compliance with current code, life safety, accessibility, and energy efficiency regulations. Along with their subcontractor's asbestos, lead, and mold report, FNI submitted their final report to the City. Both reports form a basis on which we may now base the necessary decisions for the building.

In summary, the report found:

- Structural – issues exist which will require attention during any renovation or remodel. No known issues exist which will affect the current occupancy or use of the specified areas of the building.
- Electrical – some panels should be repaired or upgraded immediately, and all electrical systems should be fully replaced during any renovation or remodel. No known issues exist which will affect the current occupancy or use of the specified areas of the building.
- Hazardous materials –
  - Mold was found in the closet connected to the back of the main Council Chamber room.
    - To clarify the report, I asked: "Is the Council Chamber safe to use, as long as the storage closet is closed off?"
    - FNI / IHST answered: "Analysis of bioaerosol samples collected in the council executive room, council chambers, and auditorium balcony level indicated indoor mold spore concentrations below outdoor reference levels, with no presence of atypical mold species or amplified mold spores at levels that constitute an

- unacceptable health risk to building occupants. As long as the storage closet is closed from the rest of the building it should not be a problem.”
- Mold was found in the upstairs storage room connected to Old City Hall area.
    - To clarify the report, I asked: “Is it safe to move stored items out of the Old City Hall storage area and then close off the storage area?”
    - FNI / IHST answered: “After reviewing the photographs of the storage room, it should not be a problem to remove the stored items from the storage room.”
  - Asbestos was found in the flooring and other small areas in the Auditorium lobby and Old City Hall areas.
    - To clarify the report, I asked: “As I understood the asbestos report, it would not have a direct effect on current use, but would be an important consideration for future renovation projects. Please confirm.”
    - FNI / IHST answered: “The asbestos in the building was determined to be floor tile and mastic which is non-friable and should not be a problem for building occupants to work around.”

**Financial Impact:** Mold remediation is roughly estimated to cost \$10,000 to \$15,000. It is not necessary to conduct the remediation immediately; however, we will work to do so within the next 6 months. All other considerations for financial impacts are to be determined.

## CITY COUNCIL MEMORANDUM FOR ORDINANCE

**To: Mayor & Council**

**From: Holly Owens, City Secretary**

**Agenda Item: Discussion and possible action to adopt the 2021 International Existing Building Code.**

### **Information:**

The Building Inspector and Code Compliance Officials currently operates under the following code:

1. 2021 International Building Code
2. 2021 International Residential Code
3. 2021 International Fire Code
4. 2021 International Mechanical Code
5. 2021 International Plumbing Code
6. 2020 National Electrical Code
7. 2021 International Fuel Gas Code
8. 2021 International Energy Conservation Code
9. 2021 International Property Maintenance Code

The adoption of the 2021 International Existing Building Code encourages redevelopment of existing buildings and is specifically designed for existing structures, allowing flexibility that the IBC does not provide.

- Avoids forcing full compliance with new construction codes for older buildings
- Makes adaptive reuse and tenant finish-outs more feasible
- Reduces redevelopment costs, encouraging private investment
- Allow existing materials and systems to remain safe
- Supports historic preservation without sacrificing life safety
- Avoids unnecessary demolition caused by modern code conflicts
- Targets critical issues (egress, fire protection, structural integrity)

Result: Preservation of community character and historic assets.

Result: More projects move forward instead of remaining vacant or deteriorating.

The zoning regulations published herein have been prepared for the following purposes:

- a) To promote the health, safety, comfort and general welfare of the citizens of the City of Gatesville by lessening congestion in the streets, providing a higher degree of safety from fire, panic, and other dangers, preventing overcrowding and undue concentration of populations, and to facilitate provision of transportation, schools, parks, and public utilities; and
- b) To promulgate fair and uniform guidelines for accomplishing the above; and
- c) To provide implementing instructions for applying and administering these guidelines.

**SEC. 1-3. Compliance with Comprehensive Plan**

The comprehensive plan provides guidance for future zoning. Zoning regulations adopted pursuant to the comprehensive plan shall be designed to:

- a) Lessen congestion in the streets.
- b) Secure safety from fire, panic, and other dangers.
- c) Promote health and general welfare.
- d) Provide adequate light and air.
- e) Prevent the undue overcrowding of land.

- f) Avoid undue concentration of population.

##### 1-4.2. Severability

All other ordinances or parts of ordinances in conflict are hereby repealed to the extent of said conflict.

##### 1-4.3. Supersession

These rules supersede any conflicting Ordinances or regulations of the City.

#### Sec. 1-6. Declaration of Policy and Review Criteria

##### SEC. 1-5. Declaration of Policy

The City declares the enactment of these regulations governing the use and development of land, buildings, and structures as a measure necessary to the orderly development of the community. Therefore, no change shall be made in these regulations or in the boundaries of the zoning districts except:

- a) To correct any errors in the regulations or map.
- b) To recognize changed or changing conditions or circumstances in a particular locality.
- c) To recognize changes in technology, the style of living, or manner of conducting business.
- d) To change the property to uses in accordance with the approved Comprehensive Plan.

##### 1-5.1 Review Criteria

In making a determination regarding a requested zoning change, the Planning and Zoning Commission and City Council should consider the following factors:

- a) Whether the uses permitted by the proposed change will be appropriate in the immediate area concerned and their relationship to the general area and the City as a whole.
- b) Whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area, and shall note the findings.
- c) The recent rate at which land is being developed in the same zoning classification as the request, particularly in the vicinity of the proposed change.
- d) How other areas designated for similar development will be, or are unlikely to be, affected if the proposed amendment is approved.
- e) Any other factors which will substantially affect the public health, safety, or general welfare.

### 1-5.3 Compliance with the Comprehensive Plan

If a zoning amendment is inconsistent with the Comprehensive Plan, the burden of proof is on the applicant requesting the zoning amendment to demonstrate that there has been a significant change in condition from the time the Comprehensive Zoning Plan was developed that would merit the amendment. If it has been established that there has been a significant change in condition and the change is deemed to not have a detrimental impact upon the surrounding area, the change in zoning should still be based upon guidelines found in the Comprehensive plan.

LAST YEAR, CITY MANAGER BRAD HUNT CHALLENGED GATESVILLE EMPLOYEES TO RAISE OVER \$7,600 FOR THE KWTX FOOD FOR FAMILIES EVENT. THEY SURPASSED THIS GOAL, RAISING OVER \$10,000, PROMPTING MR. HUNT TO FULFILL HIS PROMISE TO JUMP INTO THE CITY POOL IN FEBRUARY!

**NOW, WE ARE ASKING YOU TO JOIN IN THE FUN!**

MR. HUNT INVITES COMMUNITY PARTNERS TO JOIN THE POLAR PLUNGE CHALLENGE! ENCOURAGE YOUR CEO TO TAKE THE ICY LEAP. SET A DONATION TARGET THIS NOVEMBER, AND SHOWCASE THE RESULTS. "WINNERS" WILL PLUNGE AT THE CITY POOL ON FEBRUARY 2, 2026!
