Also, periodic community wide roll-off disposal of hazardous household waste will be available.

4. MAINTENANCE OF WATER AND WASTEWATER FACILITIES

Any and all water or wastewater facilities owned or maintained by the City of Gatesville, Texas, at the time of the proposed annexation shall continue to be maintained by the City of Gatesville, Texas. Any and all water or wastewater facilities which may be acquired subsequent to the annexation of the proposed area shall be maintained by the City of Gatesville, Texas, to the extent of its ownership.

5. MAINTENANCE OF ROADS AND STREETS

Any and all public roads, streets or alleyways which have been dedicated to the City of Gatesville, Texas, or which are owned by the City of Gatesville, Texas, shall be maintained to the same degree and extent that other roads, streets and alleyways are maintained in areas with similar topography, land use and population density. 6. MAINTENANCE OF PARKS, PLAYGROUNDS AND SWIMMING POOLS

The City Council of the City of Gatesville, Texas, is not aware of the existence of any parks, playgrounds or swimming pools now located in the area proposed for annexation. In the event any such parks, playgrounds or swimming pools do exist and are public facilities, the City of Gatesville, Texas, will maintain such areas to the same extent and degree that it maintains parks, playgrounds and swimming pools and other similar areas of the City now incorporated in the City of Gatesville, Texas.

7. MAINTENANCE OF MUNICIPALLY OWNED FACILITY, BUILDING OR MUNICIPAL SERVICE

The City Council of the City of Gatesville, Texas is not aware of the existence of any municipally owned facility, building or other municipal service now located in the area proposed for annexation. In the event any such municipally owned facility, building or municipal service does exist and are public facilities, the City of Gatesville, Texas, will maintain such areas to the same extent and degree that it maintains publicly owned facilities, buildings or municipal services of the City now incorporated in the City of Gatesville, Texas.

8. CAPITAL IMPROVEMENTS

A. GENERAL

The City provides water and wastewater treatment facilities and major distribution and collection facilities to areas within the City for which the City is authorized to provide such services (this does not include areas for which a certificate of convenience and necessity has been issued to a special district or other water provider). The City does not extend water distribution or wastewater collection mains at its own cost to new developments as part of its municipal services; instead, property owners are expected to bear such costs. Water and wastewater mains will be extended only on an as needed basis when development applications or subdivision plats that require urban level supporting services are submitted to the City in accordance with the City's subdivision and development ordinances. Once such developments begin to occur, the City also may adopt capital improvements plans for additional treatment or major distribution or collection facilities to serve the area, while property owners must pay for the mains necessary to serve their land.

B. POLICE PROTECTION, FIRE PROTECTION AND EMERGENCY MEDICAL SERVICES

The City Council of the City of Gatesville, Texas finds and determines it to be unnecessary to acquire or construct any capital improvement for the purpose of providing police protection, fire protection, or emergency medical services. The City Council finds and determines that it has at the present time adequate facilities to provide the same type, kind and level of protection and service which is presently being administered to other areas already incorporated in the City of Gatesville, Texas, with the same or similar topography, land use and population density, without reducing by more than a negligible amount the level of fire, police and emergency services provided within the corporate limits of the City.

C. WATER FACILITIES

The area to be annexed shall be annexed into the City of Gatesville Certificate of Convenience and Necessity (CCN) and water will be provided by the City. Capital improvements are not necessary to provide full municipal services for water.

D. WASTEWATER FACILITIES

The City Council of the City of Gatesville, Texas, has determined that given the current expected development in the next ten (10) years within the area to be annexed, if such development concerning the extension or expansion of wastewater facilities will be in accordance with the City's utility policies as generally set forth in section 8A of this Plan, in the City's development regulations and the service plan. Upon connection to existing mains, sewer will be provided at rates established by the City.

E. ROADS AND STREETS

Within 2 ½ years the City of Gatesville, Texas, with a cooperative effort of the City's designated utility company, will undertake to provide the same degree of road and street lighting as is provided in areas of similar topography, land use and population density within the present corporate limits of the City of Gatesville, Texas. Maintenance of properly dedicated roads and streets will be consistent with the maintenance provided by the City to other roads and streets in areas of similar topography, land use and population density as the annexed property. The City has determined that there are no current or proposed developments within the area to be annexed that require construction of supporting collector or arterial streets. As development occurs in the future, developers will be required pursuant to the ordinances of the City of Gatesville, Texas to provide internal and peripheral streets and to construct those streets in accordance with the specifications required by the City of Gatesville, Texas, for street dedication and construction. City participation in capital expenditures will be in accordance with generally applicable city policies. Once urban level developments begin to occur, the City also may adopt road improvements plans to serve the area, and the service plan may be amended under such circumstances. The City may also plan road improvements that are necessary to serve the area being annexed into the City.

SPECIFIC FINDINGS

The City Council of the City of Gatesville, Texas finds and determines that this proposed Service Plan will not provide any fewer services, and it will not provide a lower level of service in the area proposed to be annexed than were in existence in the proposed area at the time immediately preceding the annexation process.

The City Council of the City of Gatesville, Texas further finds that there are areas within city limits with similar characteristics of topography, land utilization and population density that have service levels similar to those proposed in this service plan. Because of the differing characteristics of topography, land utilization and population density, the service levels which may ultimately be

provided in the newly annexed area may differ somewhat from services provided in other areas of the City of Gatesville, Texas. These differences are specifically dictated because of differing characteristics of the property and the City of Gatesville, Texas will undertake to perform consistently with this contract so as to provide the newly annexed area with the same type, kind and quality of service presently enjoyed by the citizens of the City of Gatesville, Texas who reside in areas of similar topography, land utilization and population.
