

# Operation Liquid Gold

**"Stop the Clog and Recycle Your FOG"**

## **Why Should I Recycle My Used Cooking Oil**

- The City of Gatesville has incurred significant operational and maintenance costs associated with Fats, Oils and Grease (FOG).
- Improper disposal of cooking oil does not only affect our city financially, but also **you**, the residents.
- Disposing of used cooking oil in an improper way, may lead to clogged or broken pipes that can cost thousands of dollars to repair.

**Central Texas College Enactus partnered with the City of Gatesville to help residents recycle their used cooking oil FREE through one central location.**

### **HOW:**

- Let the used cooking oil or grease cool to a safe handling temperature.
- Once cooled, pour the used cooking oil into a jar or bottle with a lid.
- Take the oil to the Gatesville Recycling Center.
- Carefully pour the used cooking oil into the recycling bin.
- Recycle the oil container, or reuse it next time you fry food.

#### **WHERE:**

Recycling Center  
106 S. 23 Street  
Gatesville, TX 76528
