

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for City of Gatesville

Due to inclement weather, we failed to collect 5 of our 15 required coliform samples for the month of January 2023. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. From January 18th 2023 to January 31st we did not complete all sampling/monitoring for coliform bacteria and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, we are required to notify you within 24 hours.

What was done?

We collected every required coliform sample from January 1st to January 17th and from February 1st to present and are no longer in violation.

For more information, please contact Chad Newman at 254-535-2191.
